

LexJet Dye Based Ink for the HP 5000 & 5500

FAQ:

Q Will I have to change my current ICC profiles to use the new LexJet Dye Ink?

A No. LexJet Dye Inks are identical in ICC profile to the HP 5000 & 5500 dye inks.

Q Does using LexJet Dye Ink void my HP 5000/5500 warranty or Service Agreement?

A No. Using LexJet Dye Ink does not void your HP Warranty or Service Agreement. If we can track any HP printer problem to our ink, LexJet will pay for the repair.

Q I have tried other inks before that failed. What testing has been done with your ink?

A Months of extensive testing has been conducted in independent labs to make certain that the American made LexJet Dye Inks are 100% compatible with HP 5000 & 5500 printers at all revision levels of the firmware.

Q What media is the LexJet Dye Ink compatible with?

A LexJet Dye Ink is 100% compatible with any media that is 100% compatible with HP 5000 & 5500 dye inks.

Q What is the gamut of the LexJet Dye Inks compared to that of HP 5000/5500 dye inks?

A The color gamut of the LexJet Dye Ink is the same gamut as the HP 5000 & 5500 dye inks.

100% Plug-N-Play Remanufactured HP 5000/5500 Cartridges with LexJet Dye Ink

- Dead-on color replacement dye ink for the HP 5000/5500 inks
- LexJet remanufactured HP cartridges and LexJet Dye Inks are interchangeable with HP inks at the individual cartridge level
- Mix/Match and Go – No ink line or system purging required
- Hot-swappable remanufactured HP cartridges
- No color shifting; even at the time of cartridge changeout
- No changing of any profiles. Use your existing ICC profiles

Significant Savings

- Up to 42% savings on your current HP 5000/5500 ink costs
- No conversion costs or bulk ink set-up required
- No wasted ink. Add any LexJet Dye Ink and remanufactured cartridge to your HP 5000/5500 printer as your individual HP cartridges run out of ink
