**TECHNICAL  
DOCUMENTS**  
LARGE-FORMAT PRINTING

## Introducing the 44" iPF825/iPF815 large-format printers.

Advanced large-format solutions for technical documents production printing.

Built for high-speed production of both full-color and monochrome output, the imagePROGRAF iPF825 and iPF815 printers keep you moving forward and ahead of the curve. Developed specifically to meet the demands of manufacturing, engineering, construction, and reprographic firms, these dynamic printing systems effortlessly produce intricately detailed drawings, color renderings, and GIS maps.

## FEATURES

- **Print two D-sized prints per minute** or 120 D-sized prints per hour, in color or monochrome.\*
- Send large sets of files from multiple workstations to a **built-in 160GB hard drive**.
- **Accounting Manager** feature collects print job information and calculates printing costs.
- Economy Print Mode allows for **lower cost of operation**.
- **Sub-ink tank** system allows for changing ink tanks without interrupting a print job.
- iPF825 printer equipped with **two media rolls** that support multiple media types and long print runs.

\*Mechanical print time does not include data transfer time. Print time is measured for 60 consecutive minutes (including head cleaning and cutting time), printing multiple copies using Canon Printer Driver with Plain Paper setting at Draft (full-density) Mode.

## ADVANTAGES

Engineered for speed and precision, the 44" iPF825 and iPF815 printers are equipped with innovative printing technologies that help keep workgroups productive—even in the busiest environments.

### HIGH-SPEED PRINTING

Whether it's construction plans, drawings, maps, or business presentations, print speed is critical when deadlines are tight. Now you can print **two D-sized prints per minute** or output a full-color, E-sized image with full graphic coverage on heavyweight coated media in only three minutes. Engineered for high-volume printing, Canon's advanced system architecture and one-inch print head with 15,360 nozzles achieves print speeds of up to **688 ft.<sup>2</sup>/hr. on plain papers.**

### MAXIMUM PRODUCTIVITY

Print longer without interruption. Canon's unique sub-ink tank system means you can **replace ink on-the-fly**, without stopping the printer. And for long print runs, Canon's large 330ml or 700ml ink tanks and high-capacity media basket allow for even greater productivity. **Equipped with two media rolls**, the iPF825 printer eliminates the cause of many bottlenecks in busy printing environments. Automatically switch between different sizes and types of media or print on the same media to enable fast, consecutive printing of jobs submitted by multiple users.

### HIGH-QUALITY OUTPUT

Print complex schematics with super-clear small text fonts and crisp lines over color backgrounds, even on uncoated technical papers. A super-high-density print-head ejects tiny

4pl droplets of ink that consistently produce **2400 x 1200 dpi output with fine lines within +/- 0.10% accuracy** and as thin as 0.02mm. And Canon's unique 5-color Reactive Ink set delivers durable, smudge-resistant prints with sharp lines and text, bold colors, and smooth fills.

### VERSATILITY

To help optimize your daily operations, Canon includes a host of tools that simplify, strengthen, and complete your workflow. The imagePROGRAF iPF825/815 printers help you **print HP-GL/2 and HP RTL files directly from CAD applications**, while **Accounting Manager** tracks and calculates printing costs to help minimize waste and maximize profits. And for poster creation made simple, **PosterArtist Lite** and **Microsoft® Office Plug-in** (both PC only) give you all the tools you'll need to design and output impressive large-format signs and banners.

Highly efficient, superb print quality, versatile options, and a remarkably low total cost of ownership—the imagePROGRAF iPF825/815 printers deliver the production you need for high-volume printing and support for large workgroups.

With three lines of imagePROGRAF large-format printers... whatever your needs, Canon has the answer.
