

## LexJet Simple Grip Backlit (Latex & UV Only)

Take backlit and window displays to a new level with LexJet Simple Grip Backlit, a polyester film with removable adhesive that delivers versatility in printing and mounting.

This film is easy to print and install on the inside of the window when you want to view the graphic from the inside or out. Images look outstanding day or night, and really pop when paired with back or front lighting.

The dimensionally stable, water-resistant polyester has lay-flat construction that won't shrink or warp even when exposed to the heat from lighting. It also has excellent scratch resistance that keeps your graphics looking great over time. It's easy to install and remove with no residue left behind.

Use LexJet Simple Grip Backlit for dynamic window applications, retail displays, menu boards, light boxes and much more. Compatible with UV and latex inks.

### Product Highlights
