

MP2000 Moderate-duty punch

Punch with ease

Punching presentations is a snap with the MP2000 series punch. Ideal for offices, the single-pattern punch is available in several versions that are compatible with our most popular binding styles. Disengageable pins and a vertical throat make it easy to line up and punch in one step, even with special paper sizes.

Features and benefits

- Electric push-button or foot-pedal operation
- Automatic reverse to prevent paper jams
- Open throat for punching odd-sized items
- Adjustable paper alignment guide
- Adjustable punch depth (on CombBind® version)
