

Cézanne Canvas

430 gsm · 100% Cotton · natural white

Cézanne Canvas is the latest addition to Hahnemühle's range of high-quality canvas for digital FineArt inkjet printing. The natural white cotton canvas contains no optical brighteners (OBA's), and features a finely woven, elegant surface structure. The matte coating provides a first class printing result with a wide color gamut and deep, rich blacks. Cézanne Canvas 430gsm provides extraordinary elasticity, making it ideal for stretcher frames.

As with all Hahnemühle products from the Digital FineArt Collection, the Cézanne Canvas is acid-free and archival, in accordance with ISO 9706 standards (museum grade according to the requirements of galleries and museums).

- 430 gsm, 100% Cotton
- Without optical brighteners
- Natural white, matte canvas
- Slightly textured
- Extremely vibrant colors and deep blacks
- Performs well with Hahnemühle Varnish
- Perfectly suited for stretcher-frame systems
- Compatible with all dye and pigment-based printers
- Acid-free and age resistant according to ISO 9706 (museum standard according to galleries and museum's longevity requirements)
- ICC-profiles available on www.hahnemuehle.com/icc-profiles
