

HP Everyday Satin Photo Paper

The HP large format printing system—the complete solution

HP Latex printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide reliable, consistent results with every print.

Produce high quality with this resin-coated paper for high-volume production printing

Attain quality and economy in one photo paper

Ideal for production runs of photo enlargements, posters, and displays and designed for HP Latex printers, this resin-coated photo paper provides an economical price point without sacrificing quality.

Speed through production

Prints produced with HP Latex Inks come off the printer completely dry, helping you move high-volume projects through production quickly for on-time delivery to your customers.

Realize a broad color gamut for images that pop

With a wide color gamut and dynamic range on a bright-white base with a satin finish, this photo paper draws added attention to the image.

Target customers	Applications	Benefits
Point-of-purchase providers	Photo enlargements	Prints come out completely dry, enabling production printing
Trade show and exhibit companies	Point-of-purchase displays	Resin coating provides stability in production
Print service providers	Trade show and event displays	Bright-white surface, wide color gamut, satin finish
	Posters	FSC®-certified paper ¹
