Trade name: Clear Shield Classic Lite Semi-Gloss

Substance number: 3602XX812

Version: 2 / Replaces Version: 1 / WORLD

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Clear Shield Classic Lite Semi-Gloss

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

### Use of the substance/preparation

Liquid laminate

### 1.3. Details of the supplier of the safety data sheet

### Address

Marabu North America 2460A Remount Road 29406 North Charleston, SC Telephone no. 843-886-0094 Information provided Department product safety by / telephone E-mail address of PRSI@marabu.de person responsible for this SDS

### 1.4. Emergency telephone number

CHEMTREC 703-527-3887 CCN5004

# **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

Classification (Regulation (EC) No. 1272/2008)

Classification (Regulation (EC) No. 1272/2008) Aquatic Chronic 3 H412 Skin Sens. 1A H317

### 2.2. Label elements

### Labelling according to regulation (EC) No 1272/2008

### Hazard pictograms

Signal word

### Warning

### Hazard statements

H412	Harmful to aquatic life with long lasting effects.				
H317	May cause an allergic skin reaction.				
Precautionary statements					
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.				
P272	Contaminated work clothing should not be allowed out of the workplace.				
P273	Avoid release to the environment.				
P280	Wear protective gloves/protective clothing/eye protection/face protection.				
P302+P352	IF ON SKIN: Wash with plenty of soap and water.

### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid breathing vapours. Refer to protective measures listed in Sections 7 and 8.

### 6.2. Environmental precautions

Do not allow to enter drains or waterways. If the product contaminates lakes, rivers or sewage, inform appropriate authorities in accordance with local regulations.

### 6.3. Methods and material for containment and cleaning up

Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13). Clean preferably with a detergent - avoid use of solvents.

### 6.4. Reference to other sections

Information regarding Safe handling, see Section 7. Information regarding personal protective measures, see Section 8. Information regarding waste disposal, see Section 13.

# **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

### Advice on safe handling

Avoid skin and eye contact. Avoid inhalation of vapour and spray mist. Smoking, eating and drinking shall be prohibited in application area. For personal protection see Section 8. Never use pressure to empty: container is not a pressure vessel. Always keep in containers of same material as the original one. Comply with the health and safety at work laws. Do not allow to enter drains or water courses.

#### Classification of fires / temperature class / Ignition group / Dust explosion class Temperature class T3

### 7.2. Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Store in accordance with national regulation

#### Hints on storage assembly

Store away from oxidising agents, from strongly alkaline and strongly acid materials.

#### Further information on storage conditions

Store between 15 and 30 °C in a dry, well ventilated place. Keep container tightly closed. No smoking. Prevent unauthorised access. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

### 7.3. Specific end use(s)

Liquid laminate

### **SECTION 8: Exposure controls/personal protection**

### 8.1. Control parameters

### **Derived No/Minimal Effect Levels (DNEL/DMEL)**

#### 1-Methoxy-2-propanol

8.2. Exposure controls				
Exposure controls Provide adequate ventilation. W exhaust ventilation and good ge		acticab	e this should	be achieved by the use of local
<b>Respiratory protection</b> Not applicable.				
Hand protection         There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals.         For prolonged or repeated handling nitrile rubber gloves with textile undergloves are required.         Material thickness       >         0,5       mm         Breakthrough time       <         30       min         The breakthrough time must be greater than the end use time of the product.         The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.         Gloves should be replaced regularly and if there is any sign of damage to the glove material.         Always ensure that gloves are free from defects and that they are stored and used correctly.         The performance or effectiveness of the glove may be reduced by physical/ chemical damage and poor maintenance.         Barrier creams may help to protect the exposed areas of the skin, they should however not be applied once exposure has occurred.         Eye protection         Use safety eyewear designed to protect against splash of liquids.         Body protection         Not applicable.				ergloves are required. duct. use, storage, maintenance and to the glove material. d and used correctly. ical/ chemical damage and poor

### 9.2. Other information

### Other information

The physical specifications are approximate values and refer to the used safety relevant component(s).

# **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

No hazardous reactions when stored and handled according to prescribed instructions.

### 10.2. Chemical stability

Stable under recommended storage and handling conditions (see section 7).

### 10.3. Possibility of hazardous reactions

Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

### 10.4. Conditions to avoid

When exposed to high temperatures may produce hazardous decomposition products.

### **10.5. Incompatible materials**

No hazardous reactions when stored and handled according to prescribed instructions.

### 10.6. Hazardous decomposition products

See chapter 5.2 (Firefighting measures - Special hazards arising from the substance or mixture).

Trade name: Clear Shield Classic Lite Semi-Gloss

Substance number: 3602XX812

Version: 2 / Replaces Version: 1 / WORLD Date revised: 09.01.2015 Print date: 23.01.17

# **SECTION 11: Toxicological information**

### 11.1. Information on toxicological effects

Acute	dermal	toxicity

ATE Method	> calcula	2.000 ted value (Regulation (EC) No.	mg/kg 1272/2008)
Acute inhalational toxicity			
ATE Administration/Form	> Venera	20	mg/l
Administration/Form Method	Vapors calcula	ted value (Regulation (EC) No.	1272/2008)
ATE	>	5	mg/l
Administration/Form Method	Dust/M calcula	ted value (Regulation (EC) No.	1272/2008)

### Aspiration hazard

No special hazards have to be mentioned.

### Experience in practice

The liquid splashed in the eyes may cause irritation and reversible damage. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

### Other information

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and not classified.

# **SECTION 12: Ecological information**

### 12.1. Toxicity

### **General information**

There are no data available on the mixture itself.Do not allow to enter drains or water courses.The mixture has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and is classified for eco-toxicological properties accordingly. See Sections 2 and 3 for details.

### 12.2. Persistence and degradability

### **General information**

There are no data available on the mixture itself.

### 12.3. Bioaccumulative potential

### **General information**

There are no data available on the mixture itself.

### Partition coefficient: n-octanol/water

Not applicable

### Remarks 12.4. Mobility in soil

### **General information**

There are no data available on the mixture itself.

### 12.5. Results of PBT and vPvB assessment

### **General information**

There are no data available on the mixture itself.

### 12.6. Other adverse effects

Trade name: Clear Shield Classic Lite Semi-Gloss

Version: 2 /

Substance number: 3602XX812

Replaces Version: 1 / WORLD

### **General information**

There are no data available on the mixture itself.

# SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

### Disposal recommendations for the product

Do not allow to enter drains or water courses.

Wastes and emptied containers should be classified in accordance with relevant national regulation. The European Waste Catalogue classification of this product, when disposed of as waste is EWC waste code 08 03 12\* waste ink containing dangerous substances If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned.

For further information contact your local waste authority.

### Disposal recommendations for packaging

Using information provided in this safety data sheet, advice should be obtained from the relevant waste authority on the classification of empty containers.

Empty containers must be scrapped or reconditioned.

Not emptied containers are hazardous waste (waste code number 150110).
