

# HP 15-oz Prime Double-sided Blockout Banner

## The HP large format printing system—the complete solution

HP large format printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide reliable, consistent results with every print.

<sup>1</sup> Performance varies based on printer and print profile. Water resistance testing by HP Image Permanence Lab on a range of HP media and follows ISO 18935 method. For more information, see [HPLFMedia.com/hp/printpermanence](http://HPLFMedia.com/hp/printpermanence).

<sup>2</sup> Per DIN 53363.

<sup>3</sup> Per DIN EN ISO 2060.

<sup>4</sup> Per DIN EN 1049-2.

<sup>5</sup> 100% per TAPPI T-425 Test Method.

## Produce durable, brilliant double-sided banners

### Take on demanding display conditions

From long-lasting indoor displays to demanding outdoor display conditions, this durable banner material can handle it all. Brilliant image quality is preserved in water<sup>1</sup>- and tear-resistant<sup>2</sup> prints. The polyester scrim reinforcement provides excellent rip-stop qualities and extra strength when grommeting. Double-sided construction allows banners to lay flat and resist curl in a wide range of environmental conditions.

### Deliver brilliant image quality, on both sides

Deliver brilliant image quality on both sides of this double-sided blockout banner which has a matte print surface on both sides. These surfaces, combined with a tight banner weave (250 x 500 denier,<sup>3</sup> 18 x 12 threads/inch<sup>4</sup>) provide excellent durability and fine image resolution for banners that will be viewed close-up. And thanks to the 100% opaque blockout layer,<sup>5</sup> you can print images on both sides without show-through and maximize your message.

### Gain efficiency while providing outstanding color fidelity

Save time and gain efficiency with ICC profiles that help you get the color you need quickly. Applications include indoor or outdoor signs and graphics, banner stands, POP displays, and hanging banners. Designed for use with HP Latex Inks, as well as solvent, low-solvent, and UV-curable inks.
