

HP 777 DesignJet Printhead (3EE09A)

Overview

Professional, high-definition prints

There's no need for light color inks using high-definition HP printheads with dual drop technology. True 2400 nozzle-per-inch high-definition nozzle architecture (HDNA) provides twice the nozzle density.[2]

Get amazing, professional photo quality

See high-contrast color enabled by high-definition HP printheads with chromatic HP Vivid Photo Inks.[1]

Help lower your printing costs

The universal printhead can be installed with any color, so no need to manage individual color printheads.

Work without delays for high productivity

At the ready—you can maximize the life of HP printheads to help reduce downtime using Original HP inks.

[1] Chromatic HP Vivid Photo Inks are compatible with the HP DesignJet Z9+ Pro Printer and HP DesignJet Z9+ PostScript® Printer series only.
