For the best and most consistent results, a profile should be created using an external color calibrator in conjunction with your RIP and/or color matching software.

**FINISHING/POST PROCESSING**  
No post processing or finishing is required on this canvas, however a clear fixative may be applied to enhance certain areas of the print.

**OPTIMAL PRINT ENVIRONMENT**  
66-77° F, 20-60% Relative Humidity.
