## Premium Rapid-Dry Photographic Lustre Paper / 255g

Properties	Specifications
<b>Material</b>	Resin-coated photo paper
<b>Gauge</b>	10 mil, 255g
<b>CIE Whiteness</b>	>130
<b>Environmental</b>	FSC®-certified paper
<b>Opacity</b>	>90
<b>Printer/Ink Compatibility</b>	Compatible with all thermal and piezo inkjet printers using water-based dye and pigment-based inks.
<b>Software Setting</b>	The photo lustre paper setting in most RIPs is appropriate; however, we recommend a custom ICC profile for optimal results. Please refer to <a href="http://www.brandmanagementgroup.com">www.brandmanagementgroup.com</a> for ICC profiles for some printers.
<b>Light Fastness</b>	The photo lustre paper setting in most RIPs is appropriate; however, we recommend a custom ICC profile for optimal results. Please refer to <a href="http://www.brandmanagementgroup.com">www.brandmanagementgroup.com</a> for ICC profiles for some printers.
<b>Finishing/Post Processing</b>	It is always recommended that a protective laminate be applied after printing. Hand applying laminate is not recommended. Pressure-sensitive or thermal laminates can be used. Before applying the laminate, allow the image to dry for 24 hours.
<b>Handling Recommendations</b>	Avoid touching the coated surface and use cotton gloves when handling inkjet coated materials. Rolls of Kodak inkjet media come with the coated side facing out.
<b>Ideal Storage Conditions</b>	70° F (21° C), 50% R.H. (a controlled environment is recommended); store in original packaging.)
<b>Shelf Life</b>	1 year from the BMG ship date when stored in proper conditions.
