

# HP Professional Matte Canvas

## The HP DesignJet printing system—the complete solution

HP DesignJet printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide reliable, consistent results with every print.

## Museum-quality, matte-finish prints

### Produce museum-quality prints

See exquisite, museum-quality results, print after print. Enjoy a consistent base fabric capable of a large color gamut with a uniform matte finish.

### Make a lasting impression

Your works of art withstand the test of time. HP Professional Matte Canvas and Original HP pigment inks produce durable, water-resistant,<sup>1</sup> long-lasting prints. Stretch, fold and mount this flexible material—without cracking the image.

### Easy top coating for enhanced image quality

You can save time and materials with this canvas that only needs one top coat. Compatible with a wide variety of popular liquid laminates.

Target customers	Applications	Benefits
Fine artists	Fine-art reproductions	2 over 1 weave
Professional photographers	Landscape or portraiture photography	Large color gamut
Art reproduction houses	Digital art originals	Smooth bright white, matte finish
Graphics-oriented print service providers		Water-resistant, <sup>1</sup> long-lasting prints
		Compatible with a wide variety of popular liquid laminates
		Flexible finish resists cracking for easy mounting
		HP ICC profiles for high-quality, consistent results from print to print
		REACH compliant <sup>2</sup>

<sup>1</sup> Water resistant with Original HP 771 Vivid Photo Inks, or HP 70 Photo Inks. Performance varies based on printer and print profile. Water resistance testing by HP Image Permanence Lab on a range of HP media and follows ISO 18935 method. For more information, see [HPLFMedia.com/hp/printpermanence](https://hplfmedia.com/hp/printpermanence).

<sup>2</sup> As of the date of this document, November 2022, this product does not contain any of the chemicals on the EU's Candidate List for Authorization (otherwise known as Substances of Very High Concern) in concentrations exceeding 0.1%. To determine the status of SVHC in HP products, see the HP REACH Article 33 Declaration published at [HP.Printing](https://www.hp.com/go/printing). **Products and Consumable Supplies**.
