

An artistic illustration of an underwater scene. A large blue whale is the central focus, swimming towards the viewer. Above it, a school of yellow-striped fish swims. To the right, a shark and a larger fish are visible. At the bottom, a view of the Earth from space shows blue oceans and white clouds. A sea turtle and two smaller striped fish are also present. A circular logo with a red brushstroke is overlaid on the top left.

Whiteness	82 minimum
Brightness	90 minimum
L	91.40 typical
a	1.00 typical
b	5.00 typical
SPECTRAL GLOSS, 60°:	7.0 typical

This canvas is designed for digital printing applications using water based pigments and dye sets. Although designed for all printers using these ink sets, actual results may vary depending on printer model, age, print design, environmental conditions, and other factors. Exposure of a print to atmospheric pollutants, or to temperature, humidity, and / or lighting extremes can result in fading, color shifting, or other visual changes. The ideal conditions for printing and storage are a temperature of 70°F \pm 5°F and relative humidity of 50% RH \pm 3% RH. Store standing on end in box with plastic end caps in place. Never leave roll lying flat for extended periods of time.

Tara Materials guarantees only the canvas itself against defects in quality or workmanship. No other warranty is expressed or implied.
